

TOPIC: LEVERAGING PATIENT REVIEWS

By adding the Vizium widget codes to the website, you make it easier for your potential patients to see how well your practice and providers are performing. There is also an additional benefit to your Search Engine Optimization (SEO). By adding the widgets to your website, Google will rank you higher in their search results.

Vizium will customize your widgets so that they match the style of your website. For assistance with customizing the widgets and with adding them to your website, please email Michael Stegen (mstegen@vizium.com).

Vizium360 typically recommends a "footer" widget, reviews feed page that shows all the great comments and provider widgets on the biography pages (see images below for examples).

★★★★★ - Colposcopy

Nurse and doctor were very helpful. Described the process from start to finish. Felt the doctor understood my concern and set another appointment in person to discuss results. Also, like how the nurse or doctor did not make a big deal that I am childfree and my contraceptive choice. That has been one of the reasons why I have avoided GYN for years. Will be back for sure.*
